

SOURCEPOINT THERAPY® - Module 1

THE BLUEPRINT: Fundamental Principles and Practices of SourcePoint Therapy®

Workshop with Marisol Aimée Valente
November 2021 in Munich

In a complex world, simplicity has a great power.

SourcePoint Therapy is a simple approach to healing for the 21st century. – *Bob Schrei*

Source Point Therapy is a simple, non-invasive energetic approach to healing. It is based on the premise that underlying our physical body exists an energetic, geometric and informational field – the **Blueprint of Health**. This blueprint, the matrix of healing energy, contains the essential information of **Order, Balance, Harmony, and Flow** that creates, develops and sustains all life.

Source Point Therapy was designed to enhance and expand whatever modality you are using as a practitioner or receiving as a client to support your health.

Founders Donna Thomson and Bob Schrei developed the approach over a period of 10 years beginning in 1995. It has been taught worldwide since 2005.

This workshop will:

- introduce the principle of the Blueprint of Health;
- introduce the concept of Original Health in each individual
- “HEALTH is that perfect matrix, present within us from the moment of conception, which precedes the emergence of ‘form’. Health is more inherent in the geometry than the genetics.” - Mark E. Rosen, DO
- give participants a grounding in the theoretical foundation of this approach, exploring the concept of the Blueprint from the perspective of different healing, philosophical and spiritual traditions;
- teach energy scanning techniques for locating blockages in the physical body that are obstructing the flow of information from the Blueprint;
- teach energy scanning techniques for locating the most appropriate entry point for each specific session;
- instruct the students in the principles and use of the fundamental Source Points in the human energy field that connect the physical body directly to the Blueprint of Health: Diamond, Golden Rectangle, and Navel Points.

“A joyful radiance of health is attained only as the body conforms more nearly to its inherent pattern. This pattern, this form, this Platonic idea, is the blueprint for structure.” Ida Rolf

Who Can Benefit from SourcePoint Therapy® Training?

SourcePoint Therapy® can be integrated with any form of manual or movement therapy, for example: Massage, Acupuncture, Craniosacral Therapy, Structural Integration - Rolfing®, Osteopathy, Physical Therapy, Feldenkrais, BMC®. Once the energetic blockages have been identified and the basic points in the energy field have been activated, the practitioner's own modality can be used to release the blockages and facilitate the flow of information from the Blueprint.

Medical Doctors, Psychologists, Nurses, Psychotherapists and in general anyone interested in supporting their own health, or that of family and friends, through simple energy work methods also benefit from the training. (More: www.sourcepointtherapy.com)
